

| Model: SQP438-6 (S)  |              |  |
|----------------------|--------------|--|
| Standby Power (60Hz) | 438KVA/352KW |  |
| Prime Power(60Hz)    | 400KVA/320KW |  |

#### Standard Features

• Engine: Perkins 2206C-E13TAG2

Charge Alternator: 24V

Governer:Mechanical

Generator: Stamford HCI444ES

Single Bearing Alternator IP23

· Insulation Class H/H

Genuine radiator with engine driven fan

Skid and vibration isolators

Dry type air filter

Main line circuit breaker (Below 500KVA)

12V battery and cable

User's manual

| Weight And Dimensions |                      |             |  |
|-----------------------|----------------------|-------------|--|
| Genset                | Dimensions(LxWxH)    | Weight (KG) |  |
| Open type             | 3200mmx1206mmx1980mm | 2955        |  |
| Silent type           | 4500mmx1583mmx2200mm | 4774        |  |

| Generator Ratings |    |       |              |                  |                |
|-------------------|----|-------|--------------|------------------|----------------|
| Voltage           | Hz | Phase | Power Factor | Standby (KVA/KW) | Prime (KVA/KW) |
| 400/230           | 60 | 3     | 0.8          | 438/352          | 400/320        |

#### Criterion

• Generator sets: GB/T2820-1997, ISO9001: 2008

Alternator: BS5000, VDE0530, NEMA MG1-32, IEC34, CSAC22.2-100, AS1359

Diesel Engine: ISO3046, DIN6271

#### **Control Panel**

- Auto Module Control Panel, usually adopt control module of UK Deepsea DSE 7320 or Equal, is the configuration for nobody on duty generators control, This kind of panel adopts auto module control system, with large LCD display to show the menu.
- Features: receive remote output signal from ATS and realize auto start and stop of generators.
- Auto Mains Failure controller, can realize further more can detect ATS and control directly.
- RS232 or 485 interface which can communicate with PC to realize remote operation.

• Automatic Parallel Control Panel usually adopting intelligent control module of UK Deepsea DSE8610 or equal, this new automatic parallel system is inserted and folded installed, no need the peripheral relay and logic circuit. The main switch adopts electronic breaker or frame breaker, combined togethe rwith the generator, which is very reliable. One generator, one panel. The panel can be used both for single genset working or Gensets Parallel working. This kind of panel also can be used to parallel generator when the capability of the power plant needs to be enlarged in the future.

### Optional

| Engine     | Alternator   | Fuel System | Control System   |
|------------|--|-------------|--|
| Pre-heater | <ul><li>Anti Condensation Heater</li><li>Drop CT (For Paralleling)</li></ul> | •           | <ul><li>Remote Control Panel</li><li>Auto Transfer Switch (ATS)</li><li>Paralleling System</li></ul> |
|            |  |             | <ul> <li>Electricity Output Cabinet</li> </ul>   |

### Warranty

# SANO Sanq Power

- Warranty is according to our standard conditions: 12 months or 1,200 running hours, subject to the earlier one. And what's more, Perkins gensets enjoy world-wide united Warranty from Perkins engine agency or service centre at the client's local side.
- Service and parts are available from Guangzhou Sanq Power Equipment Co.,Ltd or our distributors in your location.
